

## 2025 Easter Egg Hunt

**WELCOME HOME! WELCOME TO SUMMERTREE!**

**[www.summertreecommunity.com](http://www.summertreecommunity.com)**

**The box above is the directory box.** Located by the gate house.

By using the numeric keypad, you can key in your **specific 4-digit code** \_\_\_\_\_ to automatically call the phone number we have on file for you. When you answer the phone and know it is someone you want to permit in, you **press the nine** on your phone, allowing the visitor in.

If your visitor is looking you up by name. They will use **the A or Z button** to scroll up or down the alphabet. (By holding the button down, it will advance up or down faster; or you can push the button each time to advance slower to each name.) Once they find your name, then push the call button to call the number we have on file for you. You will make sure it is someone you want to allow in, then **push nine** on your phone, allowing the visitor in.

On the front side of the box is the same rectangular reader you use your name badge on to enter the Recreation Facility doors. By scanning your name badge there, you can also activate the gate. This is an excellent feature for when you are out in a friend's car, coming in on the shuttle service from the airport, in a rental car or do not have or want the car tag on your car. **Your name badge will only work on the box above.** You must have a car sticker/tag on your vehicle to use the scanning device on the right-hand side of the road.

**ESPECIALLY FOR SKOOTER RIDERS OR WALKERS NEEDING OUT WHEN THE GATES ARE CLOSED.** On the Left-hand side of road going out you will see a push button box (WHITE / w RED BUTTON). This button will activate the out only gate to open and works for scooters that do not have the weight or metal to activate the road sensor like a car does.
