Game

Ticket Price \$15 per person

Ticket Sales in the Craft Room

Thursday, July 23rd 10am - Noon

Friday, July 24th 10 am - Noon

Friday, July 31 6-8pm

All profits are donated to a local charity

FREE HEARING CLINIC

PHYSICIANS CHOICE HEARING SOLUTIONS
OUTREACH CLINIC

THE FIRST WEDNESDAY OF EVERY MONTH

- Appointments are encouraged. Please stop by the SRF office or call to sign up. We will have a sign up list with time slots to ensure the clinic runs smoothly.

Next Event: **July 1st**

10 AM- 11 AM IN THE SRF AUDITORIUM

- Ear Wax Removal
- Hearing Aid Cleaning
- Hearing Screening
- In-Home Evaluation

*The One Blood Bus will be here from
9 AM- 12 PM

Come donate blood if you can- help save lives!

**The SRF Activity Committee invites you to the 2nd Annual
FREE Soup & Salad event- for all Summertree residents as a
THANKS for their support.**

**Summertree chefs - there will be a contest for the best soup!
Free to enter- see details below**

SOUP CONTEST WITH SALAD

**July 22nd
1-3 PM**

**1st Place Winner \$50
2nd Place \$25
3rd Place \$20**

**To enter your soup into the contest, contact Rhonda Swain at
757-450-6318**

Pasco County Voting:

Florida primary elections are coming up. If you live in Pasco County, you must be registered with the Supervisor of Elections by July 20th in order to vote in the primary on Aug 18th. If you miss that date, you can still register for the general election on Nov 3rd, but no later than Oct 5th.

New to Florida, or change of address, signature, or political party?

There is an online voter registration site that is managed by the Florida Division of Elections, and is not operated by Pasco County. If the state's online form is not working, you may print the Florida Voter Registration Application from the [Pascovotes.gov](https://www.pascovotes.gov) website and mail it to PO Box 300, Dade City FL 33526 or drop it off at any of the three office locations. (You may need to appear in person and there are documents you may need to submit.)

Location of the nearest Supervisor of Elections office:

8606 Government Dr, Suite 1
New Port Richey, FL 34654
(727) 847-8162

Closed Primaries:

Florida is a closed primary state. In a primary election, voters may only vote for candidates in their party. (The only exception is a Universal Primary Contest (UPC) in which all candidates have the same party affiliation and the winner will have no opposition in the general election. All qualified electors may vote on a UPC regardless of party affiliation.) **In the general election, party affiliation is not an issue.** You may vote for any candidate, regardless of party preference.

Mail in ballots: All Vote by Mail requests expired after the 2024 Elections!!! To request a Vote by Mail ballot for the 2026 Election Cycle, you can use the online request form at https://www.pascovotes.gov/elections/vote_by_mail/request_a_ballot.php or call 800-851-8754.

In-person voting: The voting precinct for Summertree residents is 097 at Faith Methodist Church, 12128 SR 52, Hudson FL 34669. On Aug 18th and Nov 3rd you can only vote here, and hours are 7AM through 7PM.

Early voting: This will be available at various places throughout the County. You may vote at **any** location. Primary hours are from 10AM through 6PM on Aug 8-15. General election hours are 7AM through 7PM on Oct 19-31. Check for locations at www.PascoVotes.gov.

Go to www.pascovotes.gov for complete information about voting!

DONATE BLOOD

Summertree
Wednesday, July 1
9:00 AM - 12:00 PM

All donors receive*:

- **\$25 eGift Card**
- **Limited Edition T-shirt**
- **Wellness Checkup** including blood pressure, pulse, temperature, iron count, and cholesterol screening.

Fact: Only 3% of those who are eligible actually donate blood.

Appointments are encouraged, please **scan the QR code** or visit oneblood.org/donate-now and use sponsor code 64688.

ID REQUIRED

*One offer per donor, per donation. No cash value. Not-transferable. Gifts may vary. For more information please visit oneblood.org/details.

This list of small businesses should not be considered a recommendation or endorsement by Summertree Recreation Facility (SRF).

Make a Plan DISASTER PLAN

Prevent panic and confusion by making sure everyone knows where to go and what to do in an emergency, whether at home, at school, or at work.

CHOOSE YOUR CONTACT PERSON

Ask someone out of the area to coordinate communications in the event of an emergency situation. During a disaster, communications can be affected, making it difficult to make phone calls. Family members should contact their emergency contact to report their location. Send your contact copies of important papers (ID, insurance, etc.) now, before a disaster strikes. Prepare a checklist of important information to share with your emergency contact. Your checklist should include the following information:

- Location (street name/landmarks)
- Safety (immediate/future threats)
- Medical (injuries/prescriptions)
- Check in (set up a time to check in)
- Future (locations & times where you can be found)

THINK AHEAD ABOUT EVACUATION

Determine if and when you need to evacuate, where you need to go, and how you will get there. Ask friends or family if you could stay with them. If you are in a safe area, invite them to stay with you. For more disaster planning information, contact the Department of Emergency Management (phone numbers are listed on the back of the guide) or go online to:

bit.ly/Pasco-Disaster-Preparedness
tampabayprepares.org
floridadisaster.org
ready.gov

Remember, community shelters are locations of last resort. Now is the time to plan and prepare for yourself, your family, and your community.

PICK TWO MEETING PLACES

One meeting place should be close to your home or business for sudden events such as a fire. The second should be outside your neighborhood, in case you can't get home or family members get separated.

KEEP YOUR CONTACT INFORMATION UP-TO-DATE

Include contact information in your phone and make emergency contact cards to carry with you. It is important that you write your contacts down on paper. Laminate the pages if you have the ability to do so. Don't just rely on electronic devices to store essential information such as a close family member's phone number and address—they may not work when you need them.

Fill in your personal information and contact info and keep with you.

<p>EMERGENCY CONTACT CARD</p> <p>(NEXT OF KIN) LAST NAME, FIRST NAME _____</p> <p>ADDRESS _____</p> <p>PHONE _____</p> <p>EMAIL _____</p> <p>RELATIONSHIP _____</p> <p>SSN _____</p>	<p>FOLD HERE</p>	<p>EMERGENCY INFORMATION CARD</p> <p>LAST NAME, FIRST NAME _____</p> <p>ADDRESS _____</p> <p>PHONE _____</p> <p>EMAIL _____</p> <p>BLOOD TYPE _____</p> <p>SSN _____</p> <p>BIRTH DATE _____</p>

CUT HERE

Make a Plan

PROTECT YOUR PROPERTY

There are actions you should take to make your home and business protected and secure. To make some of these improvements, you will have to get up in the attic or crawl space with a flashlight. You may feel more comfortable with an experienced and licensed inspector, architect, engineer, or contractor. Take the time to do this well before any storm threatens.

MOBILE HOME OR RV RESIDENTS

All mobile home and RV residents must evacuate for any hurricane evacuation order issued in Pasco County, regardless of your location within the county. Never stay inside a mobile home or RV to ride out the storm. Evacuate to the home of a friend or relative, a hotel, a motel, or a nearby designated shelter/evacuation center.

Anchor your mobile home or RV with tie downs and inspect the tie downs annually.

PROTECT YOUR PROPERTY FROM FLOODING

ANCHOR AND ELEVATE: If vulnerable, electrical panel boxes, heat pumps, washers, dryers, water heaters, fuel tanks, etc. should be elevated or relocated to areas less likely to be subjected to flood waters.

RETROFIT: There are things you can do to minimize the flood risk to your home.

Options to consider:

- Elevation
- Flood barriers
- Dry or Wet flood proofing

Making improvements to your property can lower your chances of unnecessary damages caused by a storm and can also lower your insurance rates.

As a storm approaches your home may be in danger of flooding. Local media will provide locations and instructions of where to fill sandbags to protect your property. Sandbags should be filled halfway and will weigh approximately 30 lbs. First, lay down plastic sheeting to act as a waterproofing layer. Then, lay the sandbags over the plastic like bricks from one end to the other. After you lay down all the sandbags, pull the plastic over the top and tuck it under the top row of sandbags.

PROTECT YOUR PROPERTY FROM WIND

Check your walls and roofing; repair what you can in advance to minimize damage and flying debris. To withstand the forces of wind associated with severe weather, remember your ABCs:

- Anchor Your Roof
- Brace Entry/Garage Doors
- Cover Your Windows
- Safe Room—DO NOT stay in a room which has unshielded windows/glass doors. Find an interior room—a bathroom, hallway, or closet—which will help buffer you from the storm's winds and any flying debris. Safe rooms can also be site-built or manufactured and can be installed in new or existing homes. Make sure all family members know where the safe areas are in your home. Take your disaster supplies with you into your safe room.

SHEDS, BARN AND OTHER STRUCTURES

If you have a structure on your property that cannot be taken apart and stored, be sure to anchor it properly. This includes the following:

- Barn
- Carport
- Gazebo
- Shed
- Dog House
- Chicken Coop

BEFORE YOU BUILD OR REMODEL

There is no need to wait for a disaster to protect your home and/or business from destruction. Pasco County, the State of Florida, and FEMA have programs in place that can help you bring your residence up to code. For tips on how to make your home safer, call (Federal Alliance for Safe Homes) Toll-Free (877) 221-SAFE (7233) or visit: www.flash.org

The county also offers programs to mitigate your property. Mitigation can reduce loss of life and property by lessening the impact of disasters. Preparedness and recovery are specific to hurricanes, sinkholes, tornadoes, and flooding.

Make a Plan SPECIAL NEEDS

SPECIAL NEEDS OR DISABILITIES

If you or someone in your family is dealing with disabilities or health issues, it's important to think ahead for emergencies. You might need a little extra help from family, friends, neighbors, or even local services. Don't be shy to ask for assistance or offer a hand to others who might need it.

If you're a caregiver or living in a care facility, check out their disaster plan. It's good to know what's in place. Pasco County keeps a record of residents with special needs, so connect with the Emergency Management team beforehand to register for assistance. Oh, and don't forget to mention if you have a service animal!

For more on special needs, swing by: mypass.co/SpecialNeeds.

Stay safe and prepared!

HOME HEALTHCARE AND HOMEBOUND PATIENTS

Taking care of your health during a hurricane is key! Have a chat with your health agency and oxygen company. Tell them where you'll be when the storm hits and ask about their game plan for providing care during the chaos. Don't forget to loop in your insurance company, too. Find out your options in case your usual providers aren't around.

If you're homebound without a home health agency, give your doctor a call. Work together to figure out your best plan of action. If you rely on things like respirators or other electric-dependent medical gear, sort things out with your physician and talk to your local power company. It's all about staying safe and prepared!

If you evacuate, remember to take medications, written instructions regarding your care, any special equipment, and bedding with you. If you will need assistance in an evacuation or need to go to a special needs/medically dependent shelter, please register with the county Department of Emergency Management NOW, during "blue sky" (non-emergency) conditions. Visit [MyPasco.net](https://mypass.net) to view the special needs qualifications video.

Special needs/medically dependent shelters do not provide hands-on medical care—only medical monitoring. You will need to bring one caregiver with you. Request a copy of all medical records on CD. Keep these records updated. Bring them with you if you evacuate. In the event that you need to seek medical attention elsewhere, records can be difficult to obtain. Your medical facility can provide tags or jewelry with medical alert information. If you are unable to obtain them from your doctor, they can be found at medical supply stores and online.

HEALTHCARE FACILITIES COORDINATION AND PLANNING

Pasco County Emergency Management is responsible for reviewing healthcare facility Comprehensive Emergency Management Plans, also known as a CEMP. A CEMP is a plan created to reduce vulnerability to all hazards. It is an in-depth document that describes how a facility will provide care for clients in an emergency (i.e., shelter-in-place, evacuating to another facility, etc.), provides a legal basis for actions taken in an emergency, arrangement of post-disaster priorities, and can help facilities understand lessons learned from prior disasters. The Agency for Health Care Administration (AHCA) requires specific criteria for the different types of facilities.

Pasco County Emergency Management reviews plans for different types of healthcare facilities including:

- Ambulatory surgical centers
- Adult daycare centers
- Assisted living facilities
- Nursing homes
- Hospitals
- Intermediate care facilities for the developmentally disabled
- Residential treatment centers for children and adolescents

At a minimum, a CEMP should address:

- Emergency evacuation transportation
- Adequate sheltering arrangements
- Post-disaster activities (i.e., food, water and emergency power)
- Post-disaster transportation, supplies, staffing, and equipment
- Identification process for residents, transferring of records, and responding to family inquires

For more information about Pasco County Health and Medical, go to:

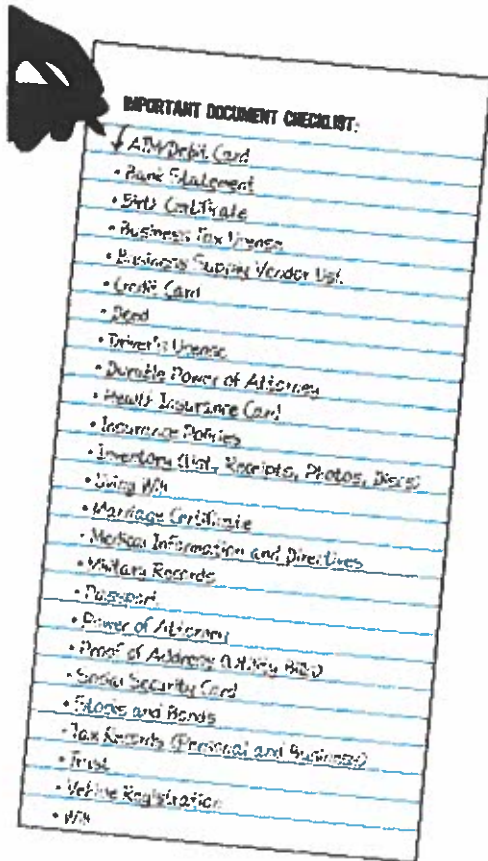

mypass.co/HealthMedicalEM

WHAT TO BRING TO A SHELTER

- Medication/Diabetic Supplies in their original packaging (14 days' supply)
- Special Dietary Foods (food and special dietary food might not be provided at a shelter)
- Medical Supplies (oxygen masks, e-tanks, concentrators, regulators)
- Blankets/Pillows/Change of clothes
- Wheelchair/Walker
- Personal Hygiene Items/wash cloth
- List of Emergency Contacts & next of kin
- Your physician's and home health agencies' contact information
- ONE Caregiver (if applicable)
- To view the special needs kit video, visit [MyPasco.net](https://mypass.net)

Make a Plan

IMPORTANT DOCUMENTS

Keep important documents in a fireproof safe or box. Store a second copy in a secure location away from your home or business. You can e-mail copies to yourself, e-mail to a friend, create folders in a Cloud/Google/Dropbox account, or even burn a CD and mail copies to people you trust. It is important that you have more than one copy of original documents.

Inventory your property and possessions. If you have access to a camera or video recorder, take pictures and video survey of your property. Create a binder, a folder, or online storage with records of your belongings. Include the value of each item at the time of purchase, and the current replacement value. If you have receipts of expensive items or collectibles, include them in your inventory prior to any disaster.

INSURANCE

Read your policy. Understanding what is—and is not—covered in your homeowner's or renter's insurance policy is a necessity. Take time now to learn about the risks you may face and build confidence that you are properly protected.

Talk with your agent. Reviewing your insurance coverage annually is an important step to maintaining the level of insurance protection necessary to be able to rebuild your home and replace your personal belongings. Ask your agent if there are any discounts for performing mitigation measures to your home or business.

If a disaster is approaching, start collecting photos and records to begin an insurance claim. Reach out to your insurance company or agent. Notify them that you are in a disaster area. This does not necessarily begin a claim, however, it does let them know you may need to file a claim if you have damages. At this time, they can assign you an adjuster or case worker as a point of contact. This can save time later.

STEPS TO INSURANCE PROTECTION

- Insure your home for its reconstruction cost, not its real estate value. Any repairs to your home/property fall under your homeowner's policy.
- If you rent, you need insurance to protect your belongings. Replacement of personal belongings falls under your renter's insurance policy.
- Know your flood risk. Standard homeowner's policies do not cover damage from flooding. This includes storm surge from a hurricane. Flood insurance is effective 30 days after purchase. Don't wait until a storm is threatening.
- Find out your deductible and set aside funds to pay your hurricane deductible.
- Get coverage for the costs of building code upgrades. If you live in an older home, it can be costly to update things such as electrical, plumbing, and other code-related regulations.
- Inventory your home's contents. This can speed up the claims process. See the Insurance Information Institute for more information: <https://www.iii.org/article/how-create-home-inventory>
